No. (10-3)-D8- 2582

**REGARDING THE INTERIM STORAGE, ENCAPSULATION AND FINAL DISPOSAL OF SPENT NUCLEAR FUEL (CASE NUMBER NV-07138-15)**

Dear Mr. Egon Enocksson,

We would like to thank you for the very useful and well organised consultation meeting regarding environmental impacts assessment for the interim storage, encapsulation and final disposal of spent nuclear fuel and the prepared consultation meeting notes.

The submitted information about EIA documentation (letter of the Swedish Environmental Protection Agency dated 5 February 2016, Case No. NV-07138-15) was disseminated to the interested Lithuanian authorities and information about the public consultation procedure and EIA documentation was published on the website of the Ministry of Environment ([www.am.lt](http://www.am.lt)). The questions raised by authorities were answered during the consultation meeting, no further comments from authorities or the public were received. Moreover, we do not have any comments regarding the notes of the consultation meeting.

We would be thankful to receive information about the decision taken in accordance with Article 6 of the UNECE Convention on Environmental Impact Assessment in a Transboundary Context.

Yours sincerely,

Algirdas Genevičius  
Vice-Minister
