

GENERALNY DYREKTOR
OCHRONY ŚRODOWISKA

Warszawa, dnia 27/11/2014 r. uci

DOOŚ-tos.441.8.2011.dts.

To be distributed in accordance with
the distribution list

Pursuant to *Article 11 of the Protocol on Strategic Environmental Impact Assessment* please be advised that Polish Nuclear Power Programme was adopted at the beginning of 2014.

The Programme is a strategic document covering the entire territory of Poland. The Document does not constitute the grounds for granting permits for implementation of nuclear projects in Poland, as it only indicates potential locations for future nuclear facilities. Let me emphasise at this point that in the event of a future decision by the Republic of Poland to launch construction of a nuclear power plant in a specific location in Poland, a comprehensive Environmental Impact Assessment will be performed in accordance with the provisions of *Council Directive 2011/92/EU on the assessment of the effects of certain public and private projects on the environment*. In such event countries covered by possible transboundary environmental impacts will be officially notified in accordance with the Convention on Environmental Impact Assessment in a Transboundary Context (Espoo).

Pursuant to Article 11(2) of the Protocol, please find (attached and under link) http://mmm.gdos.gov.pl/gdos/doc/Polish_nuclear_power_programme_pl_eng_de.zip:

- Polish Nuclear Power Programme (Polish, English and German version),
- Statement summarizing how the environmental, including health, considerations have been integrated into it, how the comments received in accordance with Articles 8 to 10 of the Protocol have been taken into account and the reasons for adopting it in the light of the reasonable alternatives considered (Polish, English and German version),
- Strategic Environmental Impact Assessment for the draft Polish Nuclear Power Programme addressing the project's potential transboundary environmental impacts (Polish version).

Yours sincerely,

GENERALNY DYREKTOR
OCHRONY ŚRODOWISKA

Michał Kleczka

Distribution list:
